Ages Golf equipment is designed to meet the golf industries stringent standards... and tailored to allow students to easily learn... have fun... and enjoy success. Our custom designed equipment features durable, oversized club heads especially tailored for beginners. And, our system is highlighted by a unique targeting system that features velcro targets for instant success at any age. Ages Golf does not use a traditional golf ball, instead we use a smaller than normal tennis ball. The ages ball is brightly coloured, and because of the material, our ball sticks to the targets on impact. The ball is safe, durable, and most importantly easy for your student to hit into the air.
